

## Bulk Bag Lifter

Features 4 lifting points providing **excellent stability** when moving bags

### Fast Facts

- + Australian Made
- + 24 Month Manufacturers Warranty
- + Excellent Load Stability

### About

- + The Kerfab Bulk Bag Lifter is a useful attachment designed to efficiently and safely lift and transport bulker bags.
- + The standard model has a WLL of 1000kg with the heavy duty model having a WLL of 2000kg.
- + The adjustable design means this attachment is capable of lifting either 70cm or 100cm bags as well as other sizes.
- + Suitable for use on ag loaders, skid steers, telehandlers and wheel loaders.
- + This attachment is popular across a range of industries where it is used to lift fertiliser bags and pipes.
