- + Massively improves efficiency
- + Various style tine lengths

Kerfab's range of Fork Positioners are available in a range of widths, capacities, and machine sizes. Below is a list of our most popular sizes.  
**Custom Solutions Available**

## About

- + The Fork Positioner is an enhanced pallet fork with the ability to shift laterally, ideal for making small adjustments.
- + Eliminates the hassle of having to reposition your entire machine only to make minor adjustments for misaligned pallets.
- + Ideal for organisation of materials especially onboard trucks or in packing bins, where space is scarce and optimising it is crucial.
- + Hydraulically powered to ensure good strength and pallet control.
- + Compatible telehandlers and wheel loaders.
