

Round Bale Fork

Kerfab's Round Bale Fork is purpose-built for safe, efficient handling of round bales. Whether piercing the flat side or sliding underneath, the design ensures secure, stable transport and easy stacking. Fitted with two Conus 2 tines on the bottom frame, this fork holds bales firmly in place and prevents unwanted rotation. The tines are fully replaceable for long-term durability and easy maintenance.

Key features at a glance:

- ▶ Low frame height offers excellent visibility and control without the added bulk.
- ▶ The double style allows you to carry multiple round bales side by side and on top of each other.
- ▶ Various tine configurations available.
- ▶ Ideal for use in sheds, tight yards and for transport tasks where clearance matters.
- ▶ It can be fitted with most hitch types including Euro Hitch, JCB Q-Fit and Manitou.

2 YEAR
STANDARD
WARRANTY

Optional third tine can be fitted to the middle of the top bar.

Strong Conus 2 tines won't bend while carrying heavy bales.

The open back frame and low height of 900mm, allows for excellent visibility of the tines when spiking and lifting bales.

Specifications:

Part Number	Weight kg*	Tines	Bushes	Machine Compatibility
UHF.RH2T09	96	2	2	Ag Loader/Tractor
THF.RH2T09	158	2	2	Telehandler
