

Tractor 4 in 1 Bucket

Make your tractor a multipurpose tool with the Kerfab 4 in 1 Bucket. Maximise your productivity and efficiency by completing everyday tasks, without changing attachments. It can be used as a standard bucket to dig, load and move materials and is designed to perform like any customary bucket in normal use. The middle opening makes it the perfect attachment for grabbing, dozing and back-blading too.

Key features at a glance:

- ▶ Boost efficiency by combining multiple functions into one tough tool.
- ▶ Manufactured from high-strength steel for guaranteed longevity.
- ▶ Various sizes available up to 2.4 meters wide.
- ▶ Simple maintenance with all main pivots having replaceable, self-lubricant bushes.
- ▶ Suitable for smaller compact tractors to larger ag loaders.

2 YEAR
STANDARD
WARRANTY

Pivoting jaw in the middle allows you to control how much material is emptied by opening at different widths.

Features reinforced edges, robust hinges and heavy duty rams for maximum durability.

Opening in the middle enables you to dump materials over high objects like fences and truck sides with ease.
