

Sifting Buckets

Sieve gap centres can be altered from standard widths to suit your requirements.

Side edges protect the bucket shell for longer service life, while also increasing efficiency when digging through rubble.

Fast Facts

- + 24 Months Manufacturers Warranty
- + Wheel Loader and Telehandler Styles
- + Available with teeth or cutting edge

About

- + Designed to make quick work of sorting building rubble and stones from soil or sand after a demolition job
- + An efficient solution to take only what you need.
- + Ideal for removing bulky construction site debris without unwanted materials occupying space in your skip bins.
- + Hardened cutting edge with teeth option eases material pickup for higher on-site productivity and longer service life.
- + Various capacities up to 3 cubic meters available.
- + Quick hitch compatible.

Kerfab's range of Sifting Buckets are available in a range of widths, capacities and machine sizes. Below is a list of our most popular sizes. **Custom Solutions Available**

Product Specs
