

Hardwood Log Grab

Optimally curved grappling arms cause logs to roll right up the inner surface of the beak

The beak has an opening range of 900mm – 1730mm and can firmly hold single or multiple logs

Grappling arms interlock for a secure grip even on single log loads or logs with small diameters

Fast Facts

- + 12 Month Manufacturers Warranty
- + Customisable to exact specifications
- + Bottom tines can be lengthened to accomodate each customer
- + Various style tine tips

About

- + The Hardwood Log Grab is designed to efficiently grasp and handle logs for the best on-site transportation and organisation of hardwood materials
- + Its unique beak design features stellar sorting capabilities
