

Wheel Loader 4 in 1 Bucket

The Wheel Loader 4 in 1 Bucket is an unrivalled combination of quality and flexibility, offering the most versatile attachment you can fit to your machine. This multipurpose bucket can be used as a standard bucket, as well as for grading, back blading, dozing, and grappling. Its ability to complete multiple tasks with ease has made it a popular bucket across the waste, construction, and agricultural industries.

Key features at a glance:

- ▶ Manufactured from GR350 steel for guaranteed strength and durability.
- ▶ Handle gravel, fertiliser, rubble, dry sand and other materials under with a density under 1600kg/m³.
- ▶ Ideal for moving materials of varying shapes and sizes.
- ▶ Teeth and various wear edges available depending on application.
- ▶ Optional trash guard can be fitted to the top of the bucket.
- ▶ Compatible with most wheel loader makes and models.

2 YEAR
STANDARD
WARRANTY

Materials can be dumped from the centre opening without tilting the bucket, allowing you to empty loads from a greater height.

Designed to keep hydraulic hoses protected from damage and accidental disconnection.

Bisalloy 500 bolt on edge increases strength while also protecting the bucket shell.

Teeth are built into the side edges of the bucket to aid with grappling large items.

Specifications:
