

## Wheel Loader 4 in 1 Bucket

**Hardened steel** construction guarantees longevity.

Due to the bucket **opening from the centre**, materials can be dumped without tilting the bucket, allowing for dumping from a greater height.

**Double bevel wear edge** or **teeth** are available.

### Fast Facts

- + 24 Months Manufacturers Warranty
- + Customisable to exact specifications
- + Quick Hitch Compatible

### About

- + The 4 in1 Wheel Loader Bucket is a multipurpose attachment that can be used as a standard bucket and as a dump bucket.
- + Can be used for grading, back blading, dozing, grappling and is suitable for use in the waste, construction and agricultural industries.
- + Common uses include handling gravel, fertiliser, rubble, light materials, dry sand and other materials under 1600g/m<sup>3</sup> density.
- + This bucket can be optioned with teeth and various wear edges depending on application.
- + Design keeps the hoses protected from damage and accidental disconnection and the hardened steel construction guarantees longevity.

Kerfab's range of 4 in 1 Buckets for Wheel Loaders are available in a range of widths, capacities and machine sizes. Below is a list of our most popular sizes. **Custom Solutions Available**
