

# Wheel Loader High Dump

Rams can be moved to the outside of the bucket to **prevent sticky materials** from getting stuck in corners.

Kerfab developed improved rams to **ensure longevity** in intense applications.

## Fast Facts

- + 12 Months Manufacturers Warranty
- + Customisable to exact specifications
- + Purpose built rams for durability

## About

- + Kerfab offers multiple variants of the high dump including light, medium and heavy duty designs.
- + The Wheel Loader bucket achieves the highest possible reach, allowing it to easily tip over high sided trucks, fences and other tall obstacles.
- + Multiple options can be fitted to improve suitability for different applications. These include wear plates, internal liners, trash guards and internal coatings.
- + Certain applications require an “outer-pocket” design which moves the rams to the outer edge of the bucket so sticky materials don’t get stuck in corners.
- + Kerfab’s range of Wheel Loader High Dump Buckets are available in a range of widths, capacities and machine sizes. Opposite is a list of our most popular sizes.

## Applications

### Light Duty

- + Handling flour, oats, sawdust and other materials under 500kg/m3 density

### Medium Duty

- + Handling manure, wheat, ashes and other materials between 500kg/m3 - 1000kg/m3

### Heavy Duty

- + Handling fertiliser, waste, compost, coal, cement and other materials over 1000kg/m3
