

## Extendable Lifting Jib

Heavy duty high tensile steel accommodates a wide range of loads

### Fast Facts

- + 12 Month Manufacturers Warranty
- + Customisable to exact specifications
- + Variable tine numbers depending on size
- + Various style tine tips

### About

- + The Extendable Lifting Jib (or material handling arm) is a useful loader attachment for lifting materials:
  - That are bulky or have unusual dimensions
  - With weight that exceeds safe limits for manual handling
  - Not suitable for pallets
  - Out of areas that are less directly accessible by pallet forks
- + Thus, it creates a safe and efficient working environment by aiding in goods transportation
- + The extendable arm provides added reach and can bear loads up to 500kg when fully extended or 5000kg when fully retracted
- + Quality rated swivel hooks allow flexibility of rotation for better manoeuvrability and access
- + The lifting jib can be customised to fit most wheel loader models
- + Quick hitch compatible

Kerfab's range of Extendable Lifting Jib are available in a range of widths, capacities, and machine sizes. Below is a list of our most popular sizes.

### Custom Solutions Available

### Product Specs

Part Number	Capacity kg (Retracted / Extended)	Extended Length mm	Retracted Length mm
LELJ1050	1000kg Ret. / 500kg Ext.	2200	1500
LELJ3010	3000kg Ret. / 1000kg Ext.	3000	1800
LELJ5020	5000kg Ret. / 2000kg Ext.	3000	1800
