1 ActiSweep

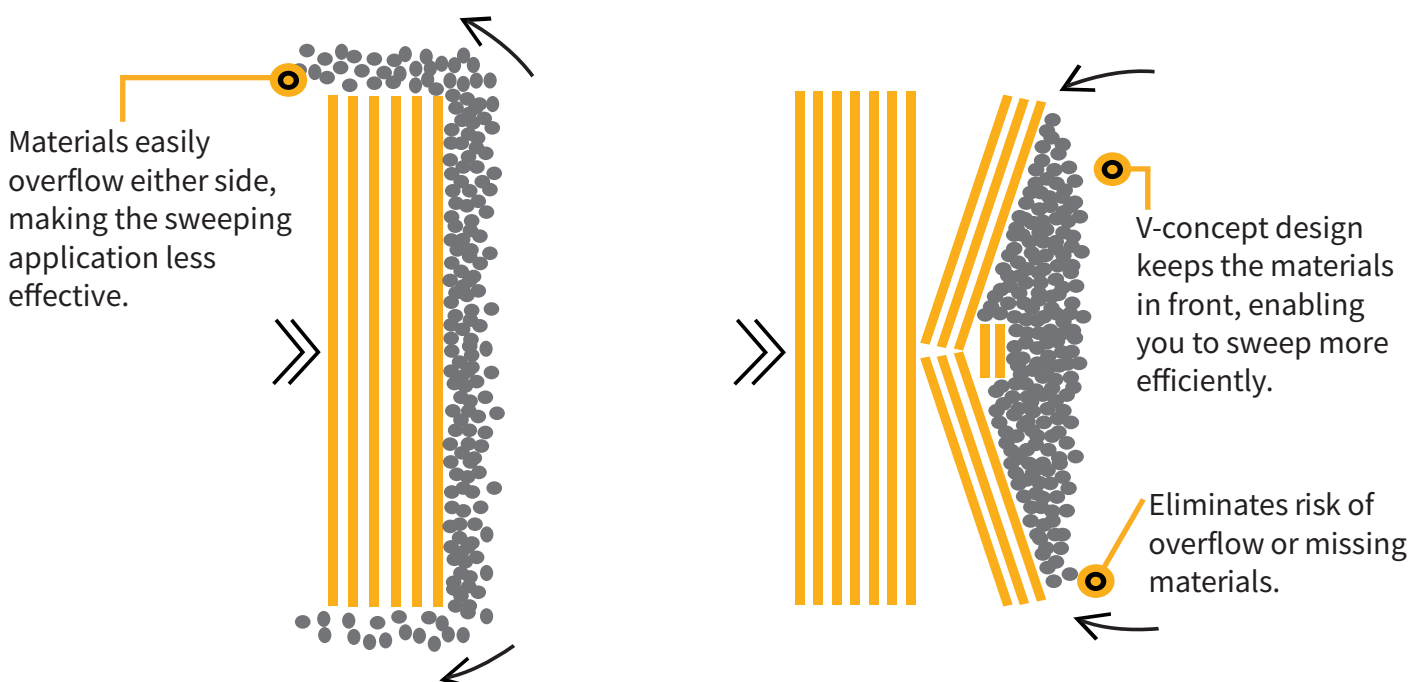

The ActiSweep Megabrush is the ideal sweeper or broom attachment. The patented V-Concept design improves efficiency by ensuring material is kept in front of the broom instead of being pushed either side.

Our V9 Sweeper is ideal for most tasks and comes with 9 rows of 300mm bristles. These bristles are made from solid polypropylene and can be replaced with ease, although this is rare as the bristles are rated over 1,000km.

V-Concept Design

The patented V-Concept design incorporates multiple straight rows of bristles at the rear of the broom and three V shaped rows at the front.

As a result, sweeping along curbs, walls and other obstructions can be done efficiently and with ease. See below graphics, showing the distinct difference the V-design makes when sweeping materials.

Specifications

Our ActiSweep is available in a range of widths and weights, to ensure your requirements can be met. Suitable for a variety of machine sizes due to different hitches we offer.

Part No.	Width (mm)	Rows of Bristles	Weight (kg)	Height (mm)	Depth (mm)
V9 - 1500	1520	9	145	300	800
V9 - 1800	1820	9	155	300	800
V9 - 2400	2450	9	205	300	800
V9 - 3000	3056	9	290	300	795
V9 - 3600	3600	9	310	300	795
V13 - 1500	1520	13	145	300	800

ActiSweep Applications

The ActiSweep is an ideal attachment for a wide range of applications. It's the perfect solution to saving you time, money and effort, by reducing the amount of manual labour required.

Grain Clearing:

ActiSweep can be used to effectively sweep up grain into piles.

Muck and Dirt:

Ideal for use on farms to clean muck and dirt inside sheds and in the yard.

Waste and Recycling:

The ActiSweep is the perfect attachment for waste and recycling.

Road Sweeper:

Due to the innovative V-concept design, the ActiSweep is becoming an increasingly popular road sweeper.

Bark Chips:

Clearing bark chips and small pieces of wood can be done with ease using the ActiSweep

Gravel and Stones:

For clearing areas with gravel and small stones, this ActiSweep is the perfect attachment you can rely on to get the job done.

3 ActiSweep

Hitch Options

Standard Bucket:

Suitable for all types of buckets and forks.

Bale Clamp:

Suitable for all types of clamps and forks.

Loader:

Universal adaption for standard buckets and forks.

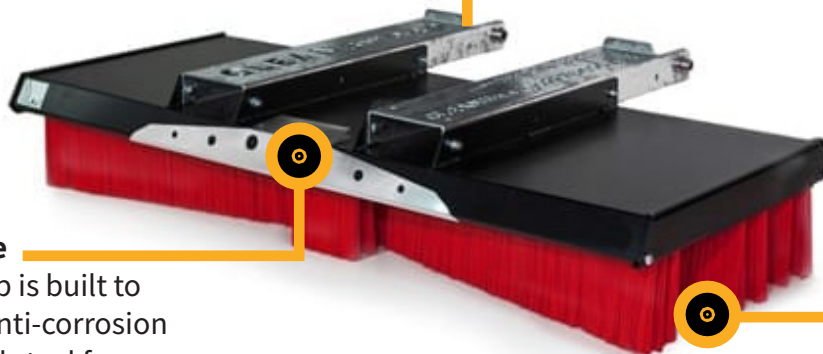

3 Points:

Direct fixing on traditional 3 point fasteners.

Euro Hitch:

Adaptation for loader with Euro Hitch quick coupler.

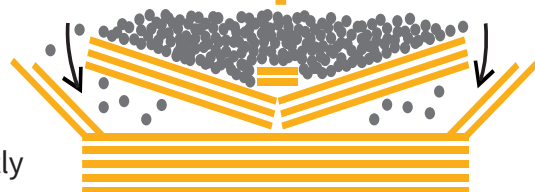

Sturdy Frame

The Actisweep is built to last with an Anti-corrosion epoxy painted steel frame.

Optional Extras

Anti-Scattering Kit

Precision Sweeping with the anti-scattering kit, allowing you to efficiently clean the floor. See image to the right, showing the underneath of the ActiSweep and the two rows of bristles on either side.

Angulation Kit

The angulation kit allows the ActiSweep brush to sweep at an angle. Has 10 fixed positions covering 360 ° and is made from galvanised steel for extra strength.

We provide a 2 year warranty on our ActiSweep. For more information and exact specifications, please don't hesitate to contact us.
