

## Yard Scraper

**Wing spread** is adjustable to give an additional length of up to 0.9m

**High-quality, hard wearing**

50mm thick rubber blade enables efficient sweeping of liquids and semi-solids on uneven surfaces

**Galvanised finish** for additional strength and durability

### Fast Facts

- + 12 Month Manufacturers Warranty
- + Various edge types depending on application
- + Angled wings to keep material centred

### About

- + The Yard Scraper is a heavy-duty attachment designed to efficiently shift manure and muck with minimal human effort, suitable for use in a wide range of applications
- + Clears farmyards, stables and sheds of snowfall, effluent, waste or hosing runoff to protect the well-being of stock
- + Maintains hygiene and prevents odour for compliance with EPA and WH&S standards
- + This attachment features adjustable wings and has a width of 2.2m to 3.1m.
- + Accommodates push and pull operation (fully reversible) with smooth transitioning between both processes
- + Compatible with ag loaders and telehandlers
- + Quick hitch compatible
