

Wrapped Bale Grab

Get a grip of your bales with a Kerfab Wrapped Bale Grab. Designed to safely pick up, transport and load wrapped bales, this attachment is your go to solution for effective handling. We manufacture a single and double style, both featuring rounded steel clamping arms. Never tear your bale wrapping again with our Wrapped Bale Grab.

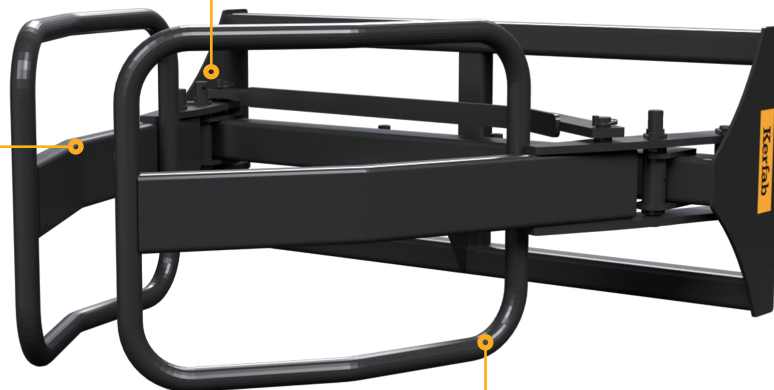

Key features at a glance:

- ▶ Hydraulically operated arms can open as wide as two meters.
- ▶ Lift and transport up to two bales with the double wrapped design.
- ▶ Rounded grab profile protect the bale for pinches, tears and other damage.
- ▶ Firmly clamps bales of various sizes with a closed dimension of 300mm.
- ▶ Ideal for stacking and organising bales
- ▶ Compatible with ag loaders, telehandlers and wheel loaders.

2 YEAR
STANDARD
WARRANTY

Short frame height of 680mm keeps the centre of gravity low and close to the machine for better stability.

Arm paddles are designed to enable you to move bales next to each other, without damaging the wrapping.

Rounded steel bar grips round bales snugly and securely.

Double Wrapped Bale Grab

Single Wrapped Bale Grab
