

Medium Duty Stick Rake

Its **angled wings** enable a more efficient collection of materials by pushing them together.

The middle section of the stick rake has a **higher back frame**, to prevent materials from spilling over onto your machine.

Fast Facts

- + 24 Months Manufacturers Warranty
- + Customisable to exact specifications
- + Australian Designed and Made

Kerfab's range of Medium Duty Stick Rakes are available in a range of widths, capacities and machine sizes. Below is a list of our most popular sizes. **Custom Solutions Available**

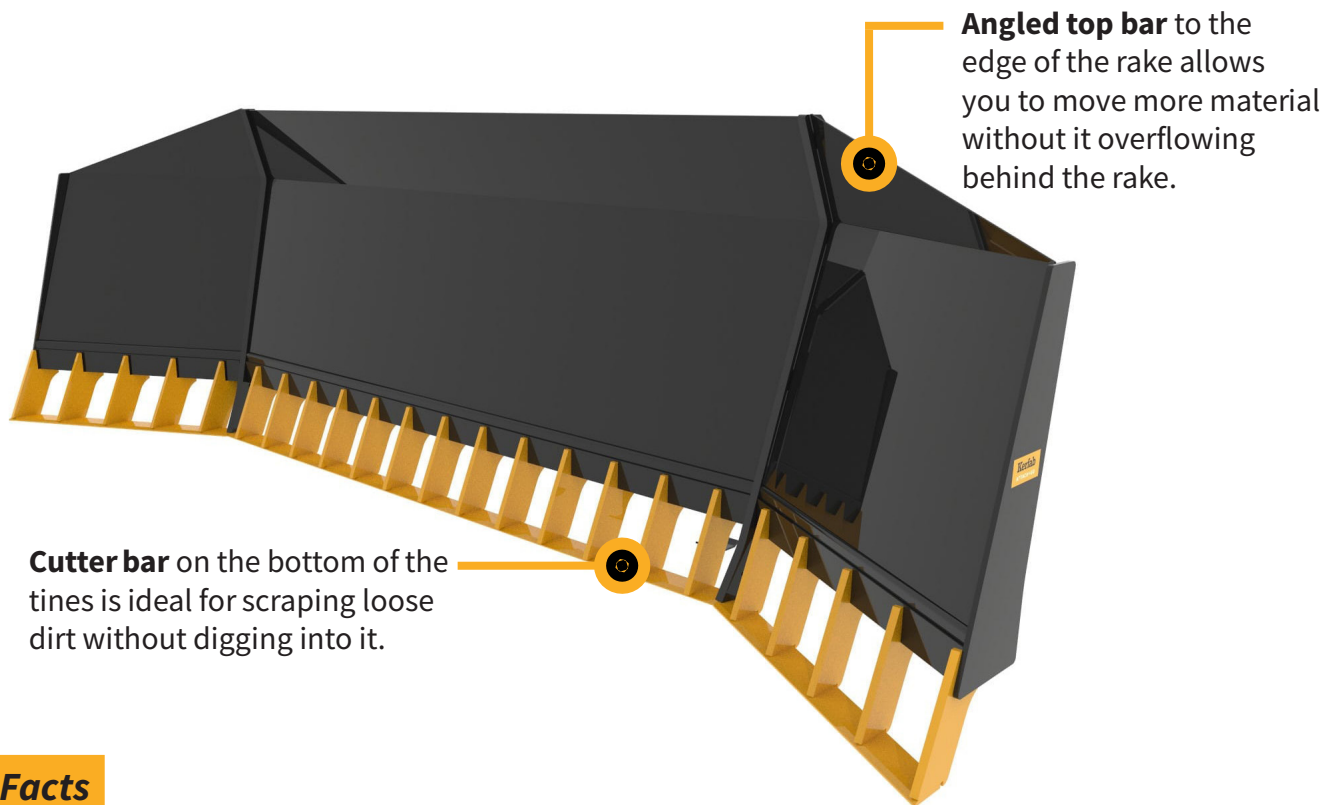

About

- + The Medium Duty Stick Rake is commonly used to assist in felling trees, pushing up fallen timber or simply clearing scrub.
- + A cutter bar runs through the middle of the tines for extra power when raking through mass amounts of refuse.
- + Fabricated with GR350 steel ensures the rake doesn't bend when moving heavy and rough materials.
- + Compatible with Wheel Loaders with a 25 tonne operating weight or above.
- + Quick Hitch Compatible

Heavy Duty Stick Rake

Fast Facts

- + 24 Months Manufacturers Warranty
- + Customisable to exact specifications
- + Australian Designed and Made

About

- + The Heavy Duty Stick Rake is designed and built around the harshest conditions the Australian outback has to offer.
- + Evenly space tine easily sifts through debris to clear materials while leaving behind dirt or good soil.
- + Can stand alone while not in use, making it easier when attaching and detaching from your machine.
- + Compatible with Wheel Loaders with a 25 tonne operating weight or above.
- + Quick Hitch Compatible
