

## Short Tine Pole Grab

**High powered** hydraulic cylinders for maximum strength

**Open back** frame allows clear vision of poles during operation for greater safety

### Fast Facts

- + 12 Month Manufacturers Warranty
- + Customisable to exact specifications
- + Various length tines depending on application

### About

- + The Short Tine Pole Grab is designed specifically for applications in the power industry
- + Its unique constitution, featuring short tines, offers a high level of precision in picking and placing or unloading concrete or timber power poles from out of stock piles and around the yard
- + Grab and tine lengths can be customised according to your unique needs
- + Dual grabbing arms have optimised curves for efficient, automatic sorting of poles when picking up more than one at a time, to effortlessly produce a neat, rounded bunch every time
- + Best suited to Telehandlers
- + Quick hitch compatible

Kerfab's range of Short Tine Pole Grabs are available in a range of widths, capacities, and machine sizes. Below is a list of our most popular sizes.
