

Telehandler Fixed Lifting Jib

Moving bulky items with unusual dimensions can pose a serious safety risk, if you don't have the right equipment. The Telehandler Lifting Jib provides a secure and efficient solution for handling heavy loads that exceed safe manual lifting limits. Whether you're lifting structural steel for buildings, moving plant and equipment, or transporting any other heavy loads, this Jib ensures safety and efficiency.

Key features at a glance:

- ▶ Various capacities available from 2,500kg to 6,000kg.
- ▶ Designed to be kept close to the hitch supporting its centre of gravity.
- ▶ Standard length of 600mm.
- ▶ Manufactured from high tensile steel for guaranteed strength and durability.
- ▶ Can be fitted with most hitch types to suit your telehandler make and model.

2 YEAR
STANDARD
WARRANTY

Quality rated swivel hooks allow flexibility of rotation for better manoeuvrability and access to items being picked up.

Its short arm design maintains the centre of gravity of the load being handled, to avoid it tipping.
